## Bethel Voters Veto Water District Charter Change

Bethel voters turned down the "Act to Amend the Charter of the Bethel Water District" by a 335 to 279 margin in Tuesday voting. Six hundred twenty-five local voters participated with 13 casting blank ballots.

The charter amendment would have enabled local voters, among other provisions, to elect five Water District Trustees, instead of having B.W.D. affairs in the hands of a three member panel appointed by the Board of Selectmen.

## BUSINESS DEVELOPMENT DISCUSSED BY BETHEL GROUP

On Thursday evening, Oct. 29, a group of business people from the Bethel area and interested citizens gathered at the Casco Bank to discuss area development with Tom Heels, Development Representative, Maine State Development Office.

Mr. Heels presented examples of materials sent to those firms who express interest in Maine and discussed the contents of each. Of particular importance to the Bethel area in such submissions is the availability to Mr. Heels' office of an up to date Community Profile. Preparation of such a profile is a relatively simple matter but essential to convey statistical information to a prospect. The Bethel Area Development Corporation members present agreed to complete a community profile and send it to the State Development Office.

Another key point in the discussion focused on the necessity of getting into the "development circuit" so that professionals in the development business and companies looking to relocate are aware of a community's interest in settling new business in their area. Mr. Heels suggested that Bethel consider the possibility of joining with other towns in Oxford

## Newry

— Miss Amy Hanscom, Corres. —

The Selectmen met Tuesday morning, Oct. 27, at Sunday River Inn. Expenditure of 1979 and 1980 State Aid Funds was discussed. These funds total \$6,384 and with matching State funds amount to slightly over \$19,000. It was decided to notify the State Department of Transportation that the Town wished to expend these funds on sections of the State Aid road on Sunday River, which were to be turned back to the Town under the Block Grant, and were most in need of repair. State Aid funds appropriated in 1981 will not be matched by the State. An article will be placed in the Town Meeting warrant to authorize the Selectmen to transfer these funds to the Highways account. James Delamater of the Bethel Savings Bank met with the Selectmen to discuss reinvestment of some surplus Town funds. It was decided to transfer \$20,000 in Passbook Plus General fund account to a 12 week certificate and the remaining \$22,000 plus interest in this account to a savings account where the funds would be available at any time, but which would pay a higher rate of interest. Tree Growth funds in the amount of \$8,000 now in passbook plus, would also be transferred to a 12 week certificate, as would \$4,077 in Federal Revenue Sharing Funds, now in the Bethel Savings Bank. Reinvestment of these funds will result in a substantial increase in the interest rate. A 12 week certificate in the amount of \$5,000 issued Aug. 15, two \$2,000 12-week

certificates for the Highway Equipment Fund, one issued Aug. 15 and one Oct. 15, as well as two \$2,000 Highway Equipment fund certificates, one six year and one five year, which mature in 1984, will be left as they are for the present. A total of \$29,503.23 in 1981 interest at the rate of 1% per month, or part thereof, will be charged on all taxes not paid before Oct. 1.

The subject of Pastor Hanscom's sermon at the New Community Church Sunday morning was "Number Seven" from the book of Revelations. Coffee and doughnuts were served after the service by Eleanor Morton and Karlene Bachelder. Anyone wishing to purchase Commemorative plates or notepaper of the Newry Community Church for Christmas presents may contact June Swan, 824-2124, or Sylvia Wight, 824-2262.

The Mothers Club will meet Nov. 9, at 7:30 p. m., at the home of Eleanor Davis. Serving on the refreshments committee will be Lillian Lowell, Nancy Wight, Karlene Bachelder and Eunice Sysko.

Mr. and Mrs. Kenneth Fitton, Benton, were guests of their son-in-law and daughter, Mr. and Mrs. Stephen Yates, Sunday.

Mary Tripp and Donald Hayner were supper guests of Mr. and Mrs. Samuel Rison, Bridgton, Saturday.

Mrs. Louise Learned and Mrs. Selma Chapman were dinner guests of Mrs. June Swan, Friday.

Mrs. Louise Learned and Mrs. Bonnie Learned were guests of Mr. and Mrs. Douglass Hodsdon Sunday p. m.

## North Paris

— Eveline B. Vatcher, Corres. —

Another page has been taken off the calendar and hunting season is just around the corner and I for one will be glad when it is over. My husband and I bought half a steer and I am going to keep my half in the barn during the hunting period. I guess my brother-in-law will keep his half in the barn after reading of all the animals being stolen or killed in the pastures around.

I hope Eva Yates at Newry kept the "Go-shoes" on the hook during all the rainy weather we had. Every time one stepped out, their feet got soaked. If it had been snow, I guess we would have had a conversation piece, period. As the rain filled all the mud holes, the geese and ducks have just about lived in the water. Even when the temperature was 15° they were bathing early in the morning. I decided they must be very clean or very dirty.

Margaret Stevens and Doris Lawrence went to the doctor in Farmington, Thursday.

Callers at Lawrences: Chris Whittemore, Sherry Millett, Pete and Polly Lawrence, Joe and Eveline Vatcher, Mr. and Mrs. Albert Penley, Sr., Lena Dean.

Joe and Eveline Vatcher were at Lewiston on Monday on business even if it did rain. Then they moved the new steer home.

The trick or treaters were out Saturday evening, even if it was cold.

Mr. and Mrs. Root Lawrence went to North Waterford, Friday afternoon to help decorate for the wedding of Maureen Millett and Albert Heath Jr., and they had supper with Albert and Maureen. Mrs. Ruby Coffin also went and after the rehearsal they all had supper together. Mrs. Norman Millett, who is attending the University of Maine at Augusta in the nursing course took a day off from her studies to supervise the proceedings.

Eveline Vatcher accompanied Root and Doris Lawrence to the Millett-Heath wedding at North Waterford, Saturday. Doris, Ruby

The next booster club is set to begin on Dec. 5. If you wish to join, see any auxiliary member or Charlotte Beauchesne or Jane Chandler.

The next general membership meeting is Wednesday, Nov. 11, at 7 p. m. at Legeview Memorial Home, West Paris. They are always interested in new members. Remember if you need the ambulance, call 1-1-D.-800-482-7433. (Note: Some telephone exchanges require the use of an I.D. number. If in doubt, please consult the telephone directory for instructions for your area.)

and Eveline made the eats for the reception which was held in the Grange Hall. On the way home, we called on Herman and Thelma Card at Norway Lake.

When I went to Dr. Nangle's, Friday, it was like "Old Home Days". Eleven filled the waiting room and we all talked at the same time or so it seemed.

Football seems to be the order of the day now and I do not care for it. I miss the baseball games.

I didn't hear any reports from the Halloween party at the hall Friday evening. It must have been cold as someone had broken a window over the sink and tried to unlock the window, using a large stump of wood borrowed from David Lyon's wood pile. We did not go in to check, but will do so shortly.

The senior Citizens had their Thanksgiving on Nov. 3 at the Legion Hall in West Paris, and I had my appetite ready.

WEAVING DEMONSTRATION  
FOR SECOND GRADERS

Rev. Jean Bass demonstrated weaving on her loom for Mrs. Parker's second grade class at Woodstock Elementary School. Each of the students made a card loom and prepared a sample of weaving. Then each student took a turn on Mrs. Bass's loom, pushing the heddle down with their feet and putting the crosswise yarns on.

Everyone in Mrs. Parker's class enjoyed weaving and learning how

Mrs. Mary Morin was in Gorham, N. H., on Saturday.

There have been a number of lost hunting dogs but all have returned and have been claimed.

The Go-Shoes are off the hook and warming up for a trip to Norway, errands to do and Joe has to have a blood check then see the doctor. It is Monday morning and looks like a nice day after the fog clears out. Everyone is busy, some sawing wood, some carpentering, some doing mulching and other fall jobs. The chilly mornings with Jack Frost in view makes you think of Thanksgiving and that's not all. Phone call Friday from Tom Yates in Colorado said, "All packed ready to start for camp to get my elk." Wish him luck. Saturday night was the night for Black Cats, Witches riding on broomsticks, ghosts and goblins. We had some and last but not least was the two wild ones with their big hats, pearly teeth and armed with water pistols. One carried a large bag and after seeing her shape and condition I think the bag was "just in case" that old cushion broke loose. The two were a howling success.

Joe and Eva were dinner guests of Peggy Blake, Sunday. A nice dinner.

## Greenwood City

— Mrs. Collista Morgan, Corres. —

This is our first November evening and again I use a poem by Stanley Foss Bartlett called "November Evening".

"The eye is an etching  
Of intricate tree-tops  
Of bird nests in branches,  
Of steeples and spires;  
A black and white picture  
Of shadows and highlights  
With stars that are quiet,  
And pane-sheltered fires.  
The eye is an etching  
Of November heavens,  
Of house-tops and chimneys  
And silent smoke lyres."

Yesterday was so perfect that at 2 o'clock I left my driveway and went tramping in the woods. I was on my way to the little hemlocks dressed in their green lace party dresses, while nearby the birches were laughing in the breeze.

Most trees had discarded their finery and stood with stark bare limbs against a barren sky. The leaves were deep and rustled like cornflakes as I walked. The earth was spongy soft, because of the recent rains. There were feathery ferns and the moss so green that it had a touch of velvet.

When part way up the hill, I sat on a rock to see the sparkle of the water.

The coming of November brings many things: snowflakes, perhaps, flung over a hilltop, woodchucks sniffing and going to their hole-houses until spring, the hoot of the owl, the bark of the fox under the stars, wind sighing in the pines, ice forming, the rustling and skitter of leaves. November, the memory of years with Thanksgiving and a "Thank You" for our many blessings.

Well, I had to be off if I wanted to make the ledges then the hill-top. The squirrel kept telling me so from a slender branch, as he went from timber top to timber top graceful as wind and never ceasing his scolding.

Under ground I heard the trickle of a brook laughing over the pebbles.

Now with evergreen needles beneath my feet, and I breathing the fresh air, I had no envy for Persian rugs needed by the millionaire.

On the ledge where the view was endless, there was a peculiar quality of light. The hills across the valley seemed close and distinct. I could look up the San-

born River which wound like a gleaming silver thread between the leafless trees.

November, the revealing month, clean of summer's dust and sky so clear blue. The air was so refreshing it reminded me of spring water.

I left my high perch above the road, where the cars raced along, and turned to climb the hill.

When I walk now, I bring home a harvest of burs and stick-tights, I did today, as I went beyond the mountain roads then down by the gray elephant tree, the beech by our spring, then on home. I stopped to pick off the stick-tights and marveled at the ingenious ways a seed can hike a ride.

As I passed the shed I looked to the west and thought of the night before with its gorgeous sunset, lavender, so rare at evening, was holding the blush of pink roses and was mirrored in the water beneath. I could have gazed forever, as I looked to the coming night then saw an emerald curtain waiting to veil the sight. I was reminded of the song "Beyond the Sunset" and my friend.

So November is the bare branch, the litter of leaves and twigs and a beautiful sunset.

## North Waterford

Mrs. Jo Sanderson, Cor.

The annual meeting of the World's Fair Association was held on Oct. 4 at the North Waterford fire station.

The election of officers was held and new officers are: president, Bruce Bradford; vice president, Randy Pike; treasurer, Toni Starbird; secretary, Marie Rolfe; directors: Bruce Bradford, Randy Pike, Marie Rolfe, Brian Starbird, Phil Lejohud, Durland Barker and Lucian Bernier.

The annual supper was held at the home of Lou and Ellen Bernier on Oct. 24. It was a pot luck supper with 31 present and a good time was had by all attending.

Anyone interested is welcome to join the Association and may call 743-6065 or 583-6141 for more information.

Sunday, Oct. 25 was detail work on the Knight Riders Club house. They got the roof all on and some clean up work done. There were 11 who came to help. Cindy Fox brought them cookies and hot chocolate for their coffee break.

Mike Cummings had the misfortune to cut his leg quite badly with a chain saw last Thursday and was taken to a Norway hospital and had 27 stitches taken to close the wound. Clyde Stanton visited him Saturday.

The North Waterford Church gave the town children a Halloween party at the vestry Saturday evening, with a good attendance.

Mrs. Jo Sanderson attended a party in West Bethel, Sunday afternoon for her granddaughter, Kathy-Jo Brooks, as she is moving to North Turner. We hope she will be very happy there.

## South Woodstock

Olive Davis, Corres.

Mrs. Leon Verrill and Mrs. Karen Verrill and baby, Brienne, were in Waterford Sunday P.M. to attend an open house in honor of Mr. and Mrs. Reed Grover's 25th wedding anniversary. Evelyn and Beverly Verrill went over after work, also to the party.

Mrs. Esther Davis and daughter, Patsy, and two children, were in Freeport where they visited Mrs. Velma Davis and daughter, Geraldine, Sunday.

Mr. and Mrs. Arthur Andrews called on Olive Davis, Saturday. They all rode to the Mattress Barn to purchase a mattress for their mother's bed and returned to Bridgton.

The heavy down-pour lately has made the water rise in the brooks and Berry's meadows are well flooded.

The Hurdles have mowed most of the fields below the road. There's a little more to do if it ever stops raining.

The Hunters' supper served by the Woodstock Willing Workers will be held at the Legion Hall at West Paris on Nov. 10, Tuesday night. The same gals will be serving you; it is hoped there will be a big attendance to help earn money to repair the church building. See you there.

Esther Davis entertained Eleanor Koskela and Olive Davis at dinner Wednesday. They spent the afternoon making out the list for soliciting for the hunters' supper.

The Willing Workers met with Mary Fleming Oct. 28 with nine present. The hunters' supper will be on Tuesday, Nov. 10, at the West Paris Legion Hall this year. Posters were put up by Esther Davis in several places. There are some repairs to be made on the church building at South Woodstock which we are trying to get done before cold weather.

After the meeting Jim and Goldie Mason entertained by showing their Alaskan pictures which were very interesting. Mrs. Fleming served doughnuts and cider as refreshments afterwards.

The next meeting will be announced later. It was decided to skip November meeting and the Christmas meeting will be with Miriam Morgan. Watch for the date. This is when the secret sisters will be revealed and gifts presented at that time, so "ye all come".

Overseers Anonymous, Wednesdays at Bethel Library. Call for information, 824-2209, 369-9561, 824-2778 or 824-2661.

## NEWS FROM ADULT AND COMMUNITY EDUCATION

The "Quick Fix" Energy Workshop held at Telstar on Monday, Nov. 2, attracted 18 interested participants who received information on low-cost and no-cost energy saving tips from Richard Ray of the Lewiston office of the Maine office of Energy Resources. Ray presented a slide show covering space heating, water heating and appliance efficiency and fielded questions from the audience on topics ranging from proper methods of foundation insulation to efficient use of hot water. An excellent selection of free pamphlets and fact sheets were available to those attending. The "Quick-Fix" workshop began a week-long series of special free one-night classes, as it was followed on Tuesday, Nov. 3, by an Investment Seminar at the Bethel Savings Bank and on Nov. 5, the final workshop in the Central Maine Power series in Bethel, Microwave Cooking, will be held at Telstar Regional High School at 7 p. m.

Adult and Community Education Director Cathy Newell was recently interviewed by telephone as part of a study of extended use of school facilities in different areas of the country. The interview concentrated on the Andover Elementary School and included the Adult and Community Education classes held at the school, as well as recreational use of the gym, the film programs held monthly, and the use of the gym for meetings. Increasing the use of school facilities during non-school hours is a goal of Adult and Community Education programs, including that in S.A.D. #44. On Monday evening Nov. 2 Telstar Regional High School provided a location for a concert for middle and high school students, for a Board of Directors meeting, a meeting of the Nordic Ski and Outing Club, for the "Quick Fix" energy workshop, as well as the Community Chorus, Computer Sewing and Solar Projects classes from Adult and Community Education.

Several classes from the fall term have finished meeting, including the course in Traditional Blacksmithing which was held in Bryant Pond at the shop of Paul Beaton who taught the course. Students in the course met on Saturdays for the six-hour classes and completed an array of small projects, some of which will be displayed at the Learning Fair which will be held at Telstar on Dec. 2.

## REBEL FIELD HOCKEY SQUAD ARE W. MAINE RUNNERS-UP

The Telstar field hockey squad finished its season as Western Maine Class "C" runners-up! The loss to Sacopec Valley, 1-0, ended what was thought to be a "building year."

Thirteen girls graduated last year and left plenty of openings on the roster. This year's starting squad had only one senior, Co-Captain D.D. Seidell, so it will have large numbers returning next fall.

The team's five and nine record earned them the eighth spot in tournament play. Once given the chance to prove what they could do, the team defeated #1 Dirigo and #3 Mexico before facing Sacopec for the Western Maine title.

The team's season record ended with a total of nine wins and ten losses. Great job girls!!

## CARD OF THANKS

I wish to extend to all my friends my thanks for the very many acts of kindness shown me while in the hospital and at Ledgeview. The cards, visits, gifts and telephone calls were all appreciated. The thoughtfulness of friends is something to be treasured.

## SACOPEE 1-TELSTAR 0 IN OVERTIME SOCCER MARATHON

The Telstar varsity soccer team nearly knocked off top seeded Sacopec Valley in schoolboy soccer action, Saturday, Oct. 31. The eighth-seeded Rebels took on the number one rated team in Western Maine class B in the quarter-final round of the play-offs but Claudio Valenzuela's goal two and a half hours after the start of the game was the only score by either team. The game lasted through 72 minutes of regulation time, two 5-minute overtime periods, and two sudden death periods without any score. During that time the Rebels stuck to their game plan, which was to prevent the opposition from scoring and hope for a break. Sacopec fired 34 shots at the Telstar goal. Freshman goalkeeper Brandon Salway, despite being roughed up twice by aggressive opponents, played his finest game of the year turning away 19 Sacopec shots. Senior sweeper Dave Whitman was also a standout on defense as he blocked many shots and stalled many scoring attacks.

The game then turned to the new tie-breaker rule which consists of alternating corner kicks, two from each team, without any score. Then, on the fifth corner kick Telstar failed to clear the ball from the penalty area and Sacopec scored the deciding goal. It was certainly the most exciting and pressure-packed game of the season for the Rebels and many local fans were there to witness it and give their support.

## WEST BETHEL

### Children's Center

Halloween was the theme of last week's activities. Besides cutting jack-o-lantern faces and preparing seeds to eat, everyone did exercises and sang a favorite Halloween song called "Five Little Pumpkins". Thursday was the traditional costume parade and the children enjoyed bobbing for apples, pinning the nose on the pumpkin, bean bag toss and peanut relay.

This week the theme is going to be centered on "Our Good Health". They hope to be enjoying visits from Dr. Williams (health center), Tracy Mason (Dr. Mason's office), and the ambulance service. Also letter E will be introduced and many activities centered on "Our Good Health".

Last week the Star of the Week was Jacob Amis and this week's Star is Andrew Saunders.

Many thanks to the following regular volunteers for their help in the kitchen and classroom: Edwina Patten, Jennie Edwards, Tracy Poland and Medora Buker. Also thank you to Sonny and Betty Ann Hastings, Herbert Lyon, and Cooper Farms for the field trips that have been taken.

Menu for Nov. 9-13:

Monday: Breakfast — Wheat Chex, corn muffin, fruit and milk; Lunch — Welsh rarebit on crackers, spinach, fruit and milk.

Tuesday: Breakfast — egg omelet with cheese, whole wheat toast, fruit and milk; Lunch — beef chow mein with brown rice, fruit and milk.

Wednesday: Center closed.

Thursday: Breakfast — cinnamon raisin oatmeal, cheese and crackers, juice and milk; Lunch — tuna loaf, baked or mashed potato, squash, fruit and milk.

# Letters to the Editor

Nov. 5, 1981

To the Editor:

We live in an age of technological marvels. This can be mighty convenient. But when it comes to the crunch, what counts is people. And when it comes to people, surely Bethel has the best.

When we phoned for help, the speedy response of the B.E.A.R.S. was incredible. Eddie and Sonia Greenleaf seemed to materialize instantaneously, followed shortly by Florence Merrill, John Greenleaf, John Owen and Mark Moore with the ambulance. After the team checked me over, Mark gave me a smooth ride to Rumford "with only one bump," while Eddie Greenleaf kept me awake and monitored my progress. My best thanks to all the B.E.A.R.S.

When I arrived at Rumford Hospital, it was reassuring to see Sue Fiske in the team waiting to check me over and make me comfortable. They did a good job. My thanks to them all.

Our neighbors the Docks not only stayed up that night until Edith was safely home, but Phyllis drove her to Rumford the next day and helped in many ways. Marge and George Noll supplied constant support. I appreciated the good wishes of the Congregational Church as transmitted in the unique collage created by Barbara Brown. Also the kindly visits of Rev. Bass and Rev. Cummings.

When I got home after my brief enforced rest, it was heartening to know that the Dick Vervilles, the Ramond Stevens, the Arnol Browns, the Daniel Groves, the Paul Bodwells and many others were inquiring about me and offering their help.

All of which is to say that the community spirit of Bethel simply can't be beat. I am exceedingly fortunate to have such friends and neighbors.

With gratitude,

Donald B. Eddy

P. S. It would take many more columns to tell all we owe to our son Sherman, for coming over from Vermont to help out for several days when his help was crucial.

Nov. 4, 1981

To the Editor:

The proposed change to the charter of the Bethel Water District was soundly defeated Tuesday by 55% of those voting. This is as I felt it should be and I am elated that the voters agreed. This morning, however, I have been congratulated several times and the word WIN has crept into these congratulations. This distresses me to no end. I never considered this a win or lose situation. My only concern was for the future of the Bethel Water District and the Town of Bethel. I am positive that the Selectmen of Bethel felt exactly the same way. Our motives were the same, but our views were in conflict. The voters spoke and the change was defeated. Only time will tell who was right and there is no guarantee even in this. Quite possibly both bodies were a bit right and a bit wrong.

I would like to make it most clear at this time that my letter to the Editor last week was not an attack on the Selectmen, but rather an assault on an idea that I felt was bad. Being a Selectman in small town, rural America is not an easy proposition. In fact, it is approaching a no-win situation. All the people cannot be happy all the time. I earnestly believe that we are most fortunate here in Bethel being represented by the group of five dedicated, honest and conscientious individuals we have elected to govern and guide the town in these difficult times. They deserve our support and our thanks. They have mine!

Sincerely,

John B. Head

To the Editor:

There is a matter of deep concern that I feel should be aired. In Mason there lies a natural swimming hole that has been used by one and all for the past hundred years or more. Access to this swimming hole has been a short section of county road (Tyler Road) that leads to the old bridge abutment.

There is currently a petition before the County Commissioners to close this road to public use and revert the land to the abutting land owners.

Approval of this petition will remove any public access to the swimming hole and limit its use to the whim of private land owners.

I hope if anyone is interested in this matter, they will take pen in hand and drop a line to the Oxford County Commissioners, South Paris, Maine, stating their point of view. Better yet it is hoped that they will take time to at-

The 13th of its series, Reforger '81 tested mobility, plans, capabilities and support agreements between military and civilian transportation agencies of both the United States and its NATO partners.

### WALKING WITH JESUS CHRIST

Somewhere in this Bethel area "in the sight of God and Jesus Christ and the elect angels"—I Tim. 5:21—there is a young lady also being watched by someone else—perhaps a roommate—who has overheard telling her parents "and she reads her Bible." We were blessed as were the "elect angels."

Yes, we're in the presence of angels because "God raised us up with Christ and seated us with him in heavenly places in Christ Jesus"—Eph. 2:6.

For sure it doesn't feel that way as we're confronted with the things of this earthly life—making our way as obstacles are put before us in every way and manner by ungodly people.

We praise God you are reading your Bible and praying, for it is, by your witness God is glorified— which earthlings can do and angels wish they could as they watch and care for you and me under God's direction.

You may be surprised to learn that you are a "minister" of Christ—and just to think God places young people in your care! A position most enviable by many—and just as great theologians present Christ in massive cathedrals—Billy Graham in his crusades—your place in God's plan is where you're planted and are to bloom.

You are like a fragrant flower in this desert of worldliness where we're confronted by empty beer cans and barn yard language—no hiding from it—"for broad is the way and many travel in it." But to the glory of God hundreds of young folk lead a different life and are willing to be counted as Christians. So, you're not alone—"because the one who is in you is greater than the one who is in the world" I John 4—the others—"are from the world and therefore speak from the viewpoint of the world, and the world listens to them"—"This is how we recognize the spirit of truth and the spirit of falsehood."

As we pray one for the other—be assured that others of "God's Holy Ones" are ready to participate with you with Bibles, Bible portions and spiritual needs. God bless you.

Fred Werner

## Superintendent's Newsletter

Dr. Wayne F. Gersen

With the advent of cold weather, the Director of Transportation, Sonny Blake, is preparing for a winter of difficult decisions. For as the snow storms approach, Sonny is in the unenviable position of making the decision on whether or not the schools in S.A.D. 44 should be cancelled. For the past 12 years, whenever snow is forecast, Sonny Blake rises at 4:30 and 5:00 a.m. and inspects the roads in the greater Bethel area to determine if the roads leading to the schools in S.A.D. 44 are passable. In cases where the snowfall has stopped during the evening, Sonny's decision is relatively easy. The state and local road crews have usually worked to clear the roads for the buses in the school district. However, in cases where the storm is in progress, and particularly those cases where a major storm is predicted, and the first snow flakes begin to fall in the early morning hours, Sonny Blake has a very difficult decision. Sonny must rely on the weather forecasting services in Dixfield, on reports from the local road commissioners with regard to road conditions in their area, and on his experience at trying to predict the weather in S.A.D. 44. Sonny's decision is further complicated by the fact that S.A.D. 44 is a large district. The weather systems in Andover, Newry, Bethel, Woodstock, and Greenwood are often radically different. In the four winters that I have served in the school district, there have been occasions when Andover received a foot of snow while the skies in Bethel are clear. And, conversely, school has been cancelled because of ice storms in the Woodstock and Bethel area while Andover and Newry remain dry and ice free.

The recent austerity imposed on the state and town budgets has presented a new problem to the school district as it makes the determination on whether or not to conduct classes. As municipal and state governments strive to keep their costs low, plowing is often postponed until 6 or 7 a.m. Thus, the town and state road crews are beginning their plowing, in some cases, only minutes before the buses would ordinarily leave the bus garage.

As a result in this change in the policy at the state and local level with regard to the clearing of roads, and, as a result of the complexities outlined above, beginning this year, S.A.D. 44 plans to follow a new policy with regard to storm days. On some days when the weather is poor, S.A.D. 44 will begin classes one (1) hour later than usual. By delaying the opening of school it may be possible for the road crews to have sufficient time to clear the roads to ensure the safe passage of students to and from school. As has been true in the past, S.A.D. 44 will use safety as the primary consideration in deciding whether to open school late or cancel school altogether. During the past few years, a delayed opening of school might have enabled us to conduct classes on some days when we had a complete cancellation of school.

This change in plans will not eliminate the cancellation of school due to inclement weather. Inevitably, there will be days when a morning weather forecast calling for 12 to 16 inches of snow will prompt Sonny and myself to decide to cancel school, only to have the predicted snow storm miss our district completely. We hope, however, that our errors with regard to the holding of classes in the school district will be errors on the side of caution, for we hope to extend the district's injury-free driving record throughout this year and for many years to come. So listen carefully to the radio when the weather is inclement, and offer us any advice you have on predicting the local weather, but please, don't call us when the weatherman's forecast is incorrect.

## TELSTAR HIGH SCHOOL DRAMA SEASON BEGINS

Members of Telstar Drama Club have been quite busy since the middle of September. A complete inventory of all materials and supplies on hand has been accomplished, a thankless but necessary chore to be done before any season. The students have also completely reorganized the storage space available to them on the stage, including building a lumber rack and arranging an adequate secure storage cabinet for lighting instruments and other electric supplies.

Recently they have been delving into preliminary planning and designing stages for their first production of the season (a major one), "Harvey," a comedy in three acts by Mary Chase. The students are pleased with this charming play about a cheerful, gentle lull, Elwood P. Dowd and his faithful leporine friend, Harvey, a six-foot-plus, invisible rabbit.

Incidentally, shortly after production began, the author, Mary Coyle Chase, of Denver, Colo., passed away Oct. 20 of a heart attack. "Harvey" was her first big success as a playwright, with 1,775 Broadway performances, and a movie remake starring Jimmy Stewart.

Connie St. Pierre of Outlook Recording Studio, who has studied under Marcel Marceau and Liv Ullmann, has worked with the cast on character development and method acting exercises. She plans to continue contributions later this month. Dennis Dreher, who has worked as a lighting and scenic designer for Celebration Mime Theatre and the Maine Open Association, is teaching lighting and set design.

"Harvey" will be presented on Friday, Dec. 11, and Saturday, Dec. 12, in the Telstar Regional High School Auditorium, curtain at 8 p.m. Tickets will be available soon. What a great way to start the Holiday Season!

In order to raise funds to cover production costs Telstar Drama Club members are selling advertising space in the back of a "Harvey" program in 1/4, 1/2 or full page sizes. Patrons who make donations will be acknowledged in the program.

Further information is available by addressing: Telstar Drama Club, Telstar Regional High School, Attn.: Gemma Morrill-Dreher, Rt. 26, Bethel, Maine 04217. Contributions may also be mailed to and made payable to this address. Please include a note stating how you would like your donation to be acknowledged with the appropriate information. Deadline for program is Nov. 21.

This change in plans will not eliminate the cancellation of school due to inclement weather. Inevitably, there will be days when a morning weather forecast calling for 12 to 16 inches of snow will prompt Sonny and myself to decide to cancel school, only to have the predicted snow storm miss our district completely. ## Gould Academy to Host Ski Coaches School November 20-22

On Nov. 20-22, Gould Academy will host the United States Ski Coaches Association Level I Coaches School. This is one of a series of eight such clinics held throughout the United States and is sponsored by the United States Olympic Committee.

Level I of the program is designed to make available to the ski coaches of America the tools and information necessary to prepare a beginning competitor for the challenges of the ski sport. The three-day program has been expanded this year to include the on-snow testing with the in-house portion of the clinic, and the clinic itself will be upgraded via the utilization of the American Coaching Effectiveness Program, whose curriculum is designed to meet the needs of introductory level coaches.

The program will begin on Friday, Nov. 20, at 5 p.m., with registration and sessions on the philosophy of coaching, sports psychology, and sports pedagogy. Saturday's program will begin at 9 a.m. and continue until 6 p.m. with such topics covered as techniques and tactics, teaching sports skills, training and nutrition. Films will be viewed on such topics as sports psychology, sports medicine, and alpine ski techniques.

Sunday's schedule begins at 9 a.m. on snow at Sunday River Ski Area, featuring top to bottom man-made snow cover, and continues until 4 p.m. Free ski drills, technical progressions, course setting and racing will be covered. Each clinic participant will be tested and corrected in these areas. Following the on-snow portion, a clinic test and questionnaire will be given to the participants. This leads to certification as a Level I Ski Coach. Level I is aimed at the entry level coach, who is able to coach only on a part-time basis throughout the year.

The faculty for the clinic includes Harold Schoenherr, Park City, Utah, the Alpine Technical Director of the USSCA. He recently served as the USSCA Men's Coach from 1976-1980, previously serving as West Germany's Men's Head Coach.

Tom Reynolds of Farmington, is the Director of Skiing Programs at the University of Maine at Farmington and served as a USSCA Assistant Coach. He acts as the liaison with the Professional Ski Instructors Association as well as serving this year as the President of USSCA.

Bob Hawkins, Park City, Utah, currently serves as USSCA Assistant Alpine Team Director and as

USSCA Alpine Executive Director, in addition he has served as the PNFA Divisional Coach, a coach at the Junior Olympics and U.S. National Championships. He is a former Head Alpine Coach at Gould Academy and coached the Maine State Junior Team.

For more information about the programs and registration materials, inquiries should be addressed to Tim LaVallee, Director of Alpine Skiing, Gould Academy, Bethel, Maine 04217, (207) 824-2161. The clinic is open to all high school and college coaches as well as those who coach at various ski areas and ski programs throughout New England. Gould Academy's fine sports facilities as well as the skiing terrain offered at Sunday River Skiway insure that this clinic will be one that every coach should attend. Graduates of the school will receive a Level I USSCA coaching certificate.

## Safety Tip of the Week

### Deer Hunting Season

The hunting season for deer will soon be open. Make sure that's a four-legged deer not someone's two-legged deer before you shoot. Take an extra minute to make sure of your target. It would be better to let "the big one get away" rather than lose a fellow hunter through carelessness. Also remember to unload your firearm before taking it into your home. Don't make someone use the excuse "I didn't know the gun was loaded."

Think safety first, last and always. Let's make this a "Safe Hunting Season—Good Luck to All!"

## ELEANOR GORDON GUILD WILL MEET NOV. 11

## BETHEL PETITIONERS THANK PUBLIC UTILITY COMMISSION

Signers of a petition protesting the Bethel Water District's rate increase would like to thank the Public Utility Commission for the time and help given by the PUC in reviewing the Bethel Water District's rate increase.

The PUC is accused many times of standing on the side of utilities, however, in Bethel's case the Commission acted in a just manner and in the final analysis saved the Bethel water users approximately a 6% increase in the town water rates.

On Feb. 13, 1981 the Bethel Water District filed a schedule of rates with the PUC for approximately a 24% increase. A large majority of the District's customers feeling this increase was prohibitive filed a petition with PUC to suspend and review this increase.

PUC spent many hours doing just that. The end result was a finding by PUC that "the unlabeled Schedule of Rates filed by the Bethel Water District with this commission on Feb. 13, 1981, is unjust and unreasonable and will not take effect", and that the correct percentage should be 18% thus saving this small community an unnecessary increase in the cost of their water.

The PUC demonstrated to the 400 customers of the Bethel Water District that their concerns were as worthy of the PUC's time and effort as the residents of a large city might be.

## CCC INTEREST RATES REMAIN AT 14.5% THROUGH JANUARY

Interest rates for 1981-crop loans and storage facility and dryer loans made through the U. S. Department of Agriculture's Commodity Credit Corporation will remain at 14.5% through Jan. 31, according to Secretary of Agriculture John R. Block.

Block said the 14.5% rate has been in effect since April 1, when USDA announced it was instituting a "floating" interest rate, subject to adjustment on the 1981-crop and facility loans.

The variable interest rate on outstanding loans—which enables CCC to adjust rates in line with borrowing costs to the U. S. Treasury—will continue in effect, Block said.

Beginning Feb. 1, he said, CCC's policy will be changed to provide for interest rates on new loans that more accurately reflect interest costs to the corporation.

## ANIMALS GET COLD, TOO

With Old Man Winter lurking just around the corner, the New Hampshire Humane Society reminds people that their pets can suffer from winter weather unless special care is taken.

Outdoor dogs must have a waterproof, draftproof shelter to make it through the long winter. The Society offers free plans for a well-built dog house in return for a self-addressed, stamped business-size envelope. (New Hampshire Humane Society, P. O. Box 572, Laconia, N. H. 03240)

In addition to ample bedding in the form of clean, DRY straw or DRY shredded newspaper, the outdoor dog also needs more food in the winter to provide extra energy for warmth. A pound of food (approximately four and a half cups of dry food) to 25 pounds of dog is a good rule. A very active dog, of course, would need more. And a pan of frozen water is as good as no water at all, so in very cold weather check the water supply often. Dogs should not be allowed to eat snow as this can cause severe gastro-intestinal upsets.

Obviously, the best thing to do for an outdoor dog when the temperature drops and the wind howls is to bring him inside.

Indoor dogs shed their undercoats and should never be made to stay outside in the cold for very long. Small or very short-haired, as well as very young or very old, dogs may need a coat or sweater for extra protection.

Cats are better off kept indoors. If you know there are cats wandering your neighborhood in freezing weather, give the hood of your car a good slap before starting it (particularly in the morning) to scare out any cats that have cuddled up near the engine for its warmth.

The common use of rock salt or other chemicals to melt ice on sidewalks and streets can lead to paw problems in pets. The defrosting chemicals can cause irritation and burning of the pads unless the pet's feet are rinsed after each walk. If the pet is allowed to lick its paws before rinsing, the chemicals may burn and irritate the tongue.

Also remember that anti-freeze can be anti-pet. The New Hampshire Humane Society asks that everyone be aware of the danger of anti-freeze and coolant solutions to dogs, cats, children and wildlife! The chemical ethyl glycol has a pleasant aroma and sweet taste which makes it attractive to animals and children. Unfortunately, it is also highly toxic and can be lethal.

## M. S. A. D. #44 BOARD MEETS

continued from Page One  
ceived an excellent report as a result of the State Police inspection of the bus fleet. Transportation Director Sonny Blake was informed that the buses were in superior condition as compared with other Districts that the State Police had inspected. Mr. Blake commended District employees Ronald Deegan and Gordon Dillingham on their excellent vehicle maintenance. It was reported that the Andover bus had been in an accident in the parking lot of the Andover Wood Products, causing nearly \$500 damage to a parked vehicle. District insurance is to cover the cost of the damage to the vehicle. There were no personal injuries, and the school bus received no damage. This is the first accident in over two years.

With the exception of Trudy Akers of Andover, all directors were present Monday evening.

The next scheduled meeting of the M.S.A.D. #44 Board of Directors is at the Andover Elementary School at 8:30 on Monday evening, Nov. 16.

## BUSINESS DEVELOPMENT

continued from Page One  
County to support a full time county level development person as Franklin County and two other counties in Maine have done.

As a first step, the Bethel Area Development Corp. will apply for membership in the Industrial Council of Maine.

There was considerable discussion about the influence an industrial park has on candidates looking for a Maine business location. Those attending the meeting expressed mixed views about a sufficiently strong commitment in Bethel to support the cost of developing an industrial park in the immediate area.

In the afternoon before the evening meeting, Mr. Heels toured the area with Don Bennett from the Chamber of Commerce and visited the P. H. Chadbourne & Co. mill. At Chadbourne's, Heels talked with Ted Chadbourne about the possibility of expanding the lumber market to offset slow sales during the current period of severe slump in the housing industry as well as the likelihood of finding exporters interested in locally produced lumber.

## 289 REFUGEE CHILDREN ATTENDING MAINE SCHOOLS

Figures compiled by the Department of Education and Cultural Services (DES) show 289 refugee children attending Maine schools as of Oct. 27.

The children, mostly of Southeast Asian origin, represent 25 school systems and all grade levels K-12, according to Barney Berube, DECS coordinator for the Transition Program for Refugee Children and for National Origin Desegregation.

Berube conducts an annual census to determine Maine's allocation under the federal Transition Program for Refugee Children. Children who have been in Maine schools for three years or less and who are designated as refugees are eligible for extra educational services under the program.

Extra educational services could include testing to determine the educational needs of eligible children, special English language instruction, bilingual education, remedial programs of instruction and/or special educational materials and supplies Berube said.

He noted that 218 refugee children were recorded in Maine schools last year.

Mrs. Frank Packard spent several days with her cousin, Sue, in Danville, last week. She was called there by the death of her aunt, Mrs. Theona McAllister.

In charge of the gifts were Tracy Millett and Jennifer Millett. Colleen Rolfe and Linda Rolfe assisted with the refreshments.

Penny, sister of the groom, cut and served the wedding cake. The hall was decorated very prettily with streamers and wedding bells, in pink and white. The cake was white with pink, which is the bride's favorite color.

The young couple received many gifts and cards containing money from their many friends. After the refreshments, dancing was enjoyed upstairs and everyone had a very enjoyable time. After a short wedding trip Maureen and Albert are at their home in North Waterford.

Also, the response to the Society's recent request for dishes for the museum has proved very gratifying. The Society is extremely grateful for the donations. Since the response was so generous, the Society would like to mention that the museum also needs any type of tool or farming implement.
